

# RECYCLE THIS SUMMER FOR KLES

Our family has been part of this program for years recycling a little bit of this and a little bit of that. The program is sponsored by different companies to properly recycle hard-to-recycle products and gives money back to non-profit and educational institutions! This is such an easy way to earn money for our school!

Collect these items over the summer and let's see how much funding we can earn for KLES! I'll keep the KLES PTA Facebook page updated with new information as we send in these items. The items below are the programs that I'm currently signed up for, there are others that we can expand to or you can do in your own home! Get an old grocery bag, one of those zillion Amazon boxes, and start filling them up!

You can drop these items off at my house throughout the summer, **but please make sure items are separated into separate packaging per collection item!** You may leave on the front porch or call me to schedule a drop-off or pick-up!

For more information about how the program works, see [terracycle.com/en-US](http://terracycle.com/en-US).
